OUR PROCESS

Consult

We learn about your windows & doors needs. We take pride in being completely transparent with our customers about how we operate. We follow a five step process to ensure you get the perfect windows and doors for your home.

Estimate

We provide you with a free estimate. Once we understand your situation, we will use this information to craft a personalized free estimate for our services.

Design

You approve your estimate & book an install date. You review the estimate. Make sure to ask us any questions you have about the estimate. At this time, you can also make adjustments to the services or products you want.

Manufacture

We manufacture your windows & doors. Once the estimate is approved and the installation date is set, we start the manufacturing process.

Install

We install your windows & doors. Once the manufacturing process is complete, our professional installation team will come to your home/Office on the scheduled installation date and install your windows and doors.
